PENDANT TUBE

by John Pawson, 2019

'Church architecture has been a real source of fantastic art throughout the centuries and lights and candles are a big part of the decoration' - John Pawson. Pendant Tube was created for large spaces, drawing its inspiration from churches and in particular the atmosphere created within the buildings. The design clearly visualises the artist's philosophy and, while being minimal and non-obtrusive in its appearance during the day, greatly impacts the ambience of larger spaces during the night

MANUFACTURING TECHNIQUE

Blown Glass

DIMENSIONS

∅ 120 x H 1360 mm | 4 Kg
