SPECIFICATION

WONDERGLASS

## PHYSALIS

by Cristina Celestino, 2018

---

Physalis stands out for its characteristic lantern shape; ephemeral and organic. Delicate, pulegoso glass is used to represent the gossamer leaves which cover the fruit. The tiny bubbles captured within the glass sparkle when lit and give an ethereal ambiance. Imperceptible, delicate and shimmering.

### MANUFACTURING TECHNIQUE

Blown Glass, Pulegoso

### DIMENSIONS

W 750 x D 250 x H 860 MM | 7 kg

### LIGHT FITTING

3 x LED | 450 lm | 3000K | Dimmable | DC | 9W

Mini Jolly Driver

### COLOURS

**Flower** | Ruby Pulegoso

Ruby

**Structure** | Gold
