CALIMERO

by Dan Yeffet

WONDERGLASS

Calimero pairs hand blown glass with a copper frame, balancing translucency and solidity in a refined composition. The glass softly diffuses light, its subtle smoky tones lending depth and atmosphere. The copper structure provides tactile contrast and structural definition, grounding the design in material presence. This interplay between fragile glass and robust metal shapes a timeless piece where craftsmanship and form coexist with quiet strength.

MATERIALS

Screen | Blown glass

Body | Copper

COLOURS

Screen | Smoky grey

Body | Copper

DIMENSIONS

Small | Ø 120 x H 180 MM | 1 Kg
