WONDERGLASS

DRIFT

by Hideki Yoshimoto

WONDERGLASS

Created by mixing pigments with transparent glass while still in a molten state, Drift's mesmeric beautiful pattern is reminiscent of the drift and flux of water in motion. Mirroring the impossibility of stepping in the same river twice, each glass panel is unique – the same series, constantly changing. Everything flows. Forever, we are adrift.

Numbered edition.

MATERIALS

Panel | Handmade Cast glass

Holder | Metal

COLOURS

Panel | Bespoke

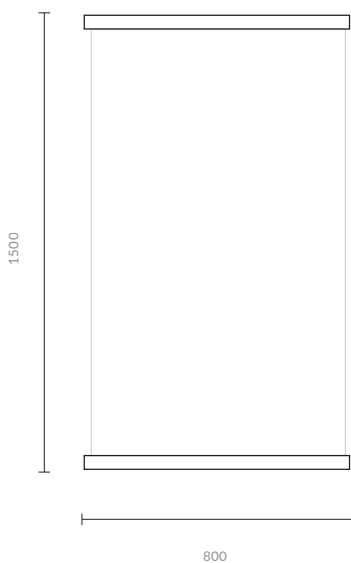

Holder | Nickel

DIMENSIONS

W 800 x H 1500 MM | 50 Kg

LIGHT FITTING
