WONDERGLASS

Horizon reimagines the pendant light as a sculptural element that complements diverse environments. Crafted from handblown Murano glass using the traditional balloton technique, its surface features a finely textured interplay of translucent and opaque areas. The minimalist design allows it to blend seamlessly into its surroundings during the day, while its subtle illumination at night adds a quiet presence to any space. This balance of form and light exemplifies Pawson's philosophy of restrained elegance.

## MATERIALS

**Body** | Blown glass

**Structure** | Metal

## COLOURS

**Body** | Frosted crystal gradient

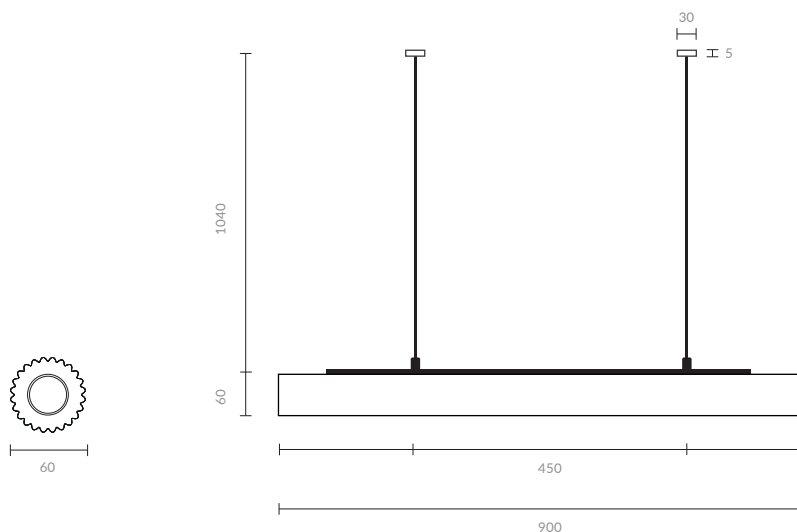

**Structure** | Polished chrome

## DIMENSIONS

Ø 60 x H 1040 x W 900 MM

## LIGHT FITTING

Strip LED | 3000K | 12 W | 24 V | DC
