WONDERGLASS

The Venetian lagoon, where the tradition of fishing with nets has been long practised, is an ever-changing light and colour symphony defining the waterscape. Evoking this setting, the pieces are created from intricately shaped hand-blown glass. The unconventional use of fishing nets emphasises the play of natural light within.

MATERIALS

Body | Blown glass

Capping | Metal

COLOURS

Body | White gradient

Capping | Black

Interior Netting | White mesh

DIMENSIONS

Nasse 01 Ø 400 x H 700 MM | 8.5 Kg
