FLOOR HORIZON

by John Pawson

WONDERGLASS

Like the original Horizon pendant lamp, Floor Horizon is designed to disappear during the day, emerging incandescent at night. Its visually recessive steel structure creates the drama of an apparently floating vertical line of light. The glass body is handblown using the traditional balloton technique, producing an intricately textured cylinder whose character shifts seamlessly between translucence and opacity.

MATERIALS

Body | Blown glass

Structure | Metal

COLOUR

Body | Frosted crystal gradient

Structure | Nickel

DIMENSIONS

Ø 95 X H 1250 X W 240 MM

LIGHT FITTING

Strip LED | 3000K | 5 W | 24 V | DC
