MAREA

by Atelier oī, 2020

Designed by the Swiss transdisciplinary studio atelier oī, Marea, named for its reference to the rise and fall of the tide, mirrors the impression of light moving on water. Stacked suspended disks of clear glass feature radial micro grooving on the base, a pattern that when lit reflectively, creates a shimmering effect reminiscent of sparkling stars on water. The suspended pendulums are seen to float above the glass, held by the earth's magnetic forces, adding to the spectacle of moving light and pattern that replicates rippling water.

MATERIALS

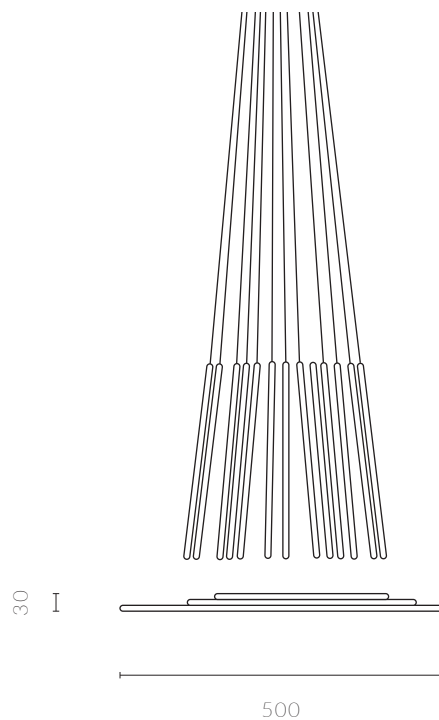

Cast Glass

DIMENSIONS

Ø 500 x H 30 MM

COLOURS

Aquamarine
