BOUCHON

by Dan Yeffet

WONDERGLASS

Bouchon is a series of handmade blown glass geometric furniture elements inspired by the shapes of corks, a waste object now infused with a new aesthetic value. The different models are all characterised by a monochromatic solidity, while maintaining a specific lightness given by the delicacy of blown glass. In a play between the ordinary becoming extraordinary, the miniscule becoming outsized, they create a whimsical rhythm when paired together.

MATERIALS

Body | Blown glass

Base | Cork

COLOURS
