WONDERGLASS

Kimera draws inspiration from the mythological creature of the same name, a hybrid formed from contrasting animals. The lamp mirrors this concept through a fusion of techniques and materials, combining advanced technological methods with ancient craft, such as filigree blown glass. The resulting form becomes a luminous shell, floating organically in space. Kimera embodies an evolving, utopian vision: a sculptural light that merges tradition and innovation, where contrasting elements coexist in a delicate balance between materiality, craft, and ethereal presence.

Numbered edition.

MATERIALS

Body | Blown filigree glass

Structure | Metal

Light | LED dimmable

COLOURS

Filigree

DIMENSIONS

W 410 x H 500 x D 140 MM
